DANIEL THOMPSON
Developer ★ Designer

Atlanta, GA | 601.502.5179
dthompson0190@gmail.com

Highly adaptable self-starter with extensive background in design. I'm a dynamic team player with a strong eye for detail and emphasis on accessibility, and I'm accustomed to performing in deadline-driven environments while maintaining a high level of polish.

SKILLS

Ae   Ai   Id   jQuery   MySQL

Ps   Pr   Xd   HEROKU   git

HTML5   CSS3   JS   aws   python   django

ACCOUNTABLE	PROBLEM-SOLVING

COMMUNICATOR	SELF-STARTER
CREATIVE	TEACHABLE
EMPATHETIC	TEAMWORK
GOOGLING	TIME-MANAGEMENT
OPEN-MINDED	TENACIOUS

PROJECTS

Dex App

Python, Django, Bootstrap, JavaScript, JQuery, SQLite, Pokemon API, AWS/S3, Heroku, HTML/CSS, Adobe CC

A django app where users can find and follow new friends, review one of 898 Pokemon, and build teams with those Pokemon displaying overall strengths and weaknesses. All backend and frontend done by me.

[View Project] [View Code]

Ninja Gold

Python, JavaScript, JQuery, Heroku, HTML/CSS, Adobe CC

A simple, luck-based game built with django! It's basically blackjack on steroids. Built/ coded/ designed by me. Can you get 100 coins in 10 turn without going over?
